

BNMIT HACKATHON

INSTRUCTIONS

First of all, you need to install an ova file (hackathon1.ovaf) and import the file into virtual box, You can download the file from here;

[CLICK HERE](#)

RULES;

HACK THE MACHINE IN ANY WAY POSSIBLE..

DONOT COMPROMISE THE MACHINE ..

FIND THE FLAGS..

“ACT AS ONE, RESEARCH ,ATTACK AND HUNT BECAUSE THIS WILL REQUIRE ALL THE 4 OF YOUR BRAINS COMBINED. THIS IS THE ULTIMATE TEST,, THE FIRST HACKATHON IN YOUR CAREER.....SO AS I ALWAYS SAY,, HACK ON USERSSSS”

FLAG 1

Hint: Find out the IP address and the website of the machine. You will get the flag 😊

The first flag;

FLAG 2

Hint: Nothing is true ,Are you sure whats in front of you is the real? .

When you brute force the password list will be in 50 keywords.

Find the second flag

FLAG 3

Hint: *We never look at what's in our hand, we search it somewhere else... ..*

Whats the 3rd flag?

Well well you made it till here,, When others already gave up you made a stand and fought well..Take a breathe and look at how far you reached ...NEVER GIVE UP EVEN WHEN OTHERS HOLD YOU BACK ,EVEN IF YOUR TEAM BETRAYS YOU ,, DON'T STOP... Now lets raise the levels and take it up a notch....

FLAG_4

Hint: look for important files you will find the hint, the file will be with "size 36" owned by root and the group will also be root..

I think you got the final flag...

Put your flag here

Congrats user, you made it Stand proud ,,This is the first step to a whole new domain.

Thank you all , Hope we made an impact in your life..
